

CHANNEL DRAIN

POUR IN PLACE

Plastic Drain

Channel Drains are a economical alternative to precast concrete drains. Light weight and easy to install. UV inhibitors in the grates, channel and component parts prevents fading and cracking from the sun. All plastic grate and channel components are chemically resistant, rust proof and maintenance free. Channel Drains operate on the same principal as a roof gutter. Mini, Spee-D and Micro drains connect like PVC pipe. Pro Series injected Molded Channel have mechanical interlocking joints. The channels easily connect to sewer and drain pipe fittings or SCH 40 pipe and fittings. This system also offers a choice of outlets. Water can be evacuated from the bottom or from the

end of the channel. It eliminates grading a deck surface to a low area. Instead, the deck is gradually sloped in one direction or plane, and the channel drain acts as a perimeter drain to the edge of the slope. Most hardscapes experience more runoff than landscapes due to the lack of water absorption. Channel Drain systems provide more overall open surface area than conventional area grates. Spee-D and Pro Series will handle light automobile traffic at low speeds. Mini and Micro are designed for foot traffic applications only. **For specific load information, contact Masons Supply.**

SPEED-D		
No.	Description	Color
NDS 241	2' Grate	Grey
NDS 243	2' Grate	Black
NDS 400	4' Channel	Grey
NDS 401	10' Channel	Grey
ACCESSORIES		
NDS 246	End Outlet w/2" Schedule 40 SPT	Grey
NDS 249	End Outlet w/3" & 4" Offset (Connects to 3" S&D Pipe, 4"S&D Fittings)	Grey
NDS 234	2' Channel w/Fabricated 3" & 4" Spigot (Bottom Outlet with Strainer)	Grey
NDS 247	Solid End Cap	Grey
NDS 248	Coupler	Grey
NDS 2381	90° Elbow Channel	w/Grey Grate
NDS 2301	45° Elbow Channel	w/Grey Grate
NDS 2371	Tee Channel	w/Grey Grate

MINI		
No.	Description	Color
NDS 541	3' Grate	Grey
NDS 500	6' Channel	Grey
