

WET/DRY CUT PREMIUM SEGMENTED

Our Premium diamond segmented blades are made from the highest quality industrial diamond. They will provide contractors fast cutting and long life. The features include - laser welded segments, high diamond concentration, .125 high speed core and pin hole. The high speed core allows the blade to run on a Quicky saw as well as a brick saw. The pin hole also allows the blade to run on a low HP walk behind saw that saves the contractor from purchasing several blades for each piece of equipment.

No.	Diameter	Arbor	Wt (lbs)
Stone - High Aluminum Fire Brick, High PSI Concrete (Blue Color)			
DP 12CA	12" x .125	1"	3.00
DO 12STN	12" x .125	1"	3.00
DO 14STN	14" x .125	1"	5.00
DP 14SABRE	14" x .125	1"	5.00
DO 20STN	20" x .135	1"	11.0
DP 14CA	14" x .125	1"	5.00
Cured Concrete - Hard Brick (Green Color)			
DP 12CC	12" x .125	1"	3.00
DP 14CC	14" x .125	1"	5.00
DP 14IP-S	14" x .125	1"	5.00
DP 18PF80	18" x .125	1"	9.00
DP 20PF80	20" x .125	1"	10.00
No.	Diameter	Arbor	Wt (lbs)
Medium Brick, Block (Red Color)			
DP 12BRICK	12" x .125	1"	3.00
DP 14BRICK	14" x .125	1"	5.00
DO 20BB	20" x .135	1"	10.00
No.	Diameter	Arbor	Wt (lbs)
Asphalt, Green Concrete (Black Color)			
DP 14AC	14" x .125	1"	5.00
DP 18PF89	18" x .125	1"	9.00
DP 20PF89	20" x .125	1"	10.00
Different arbor sizes and blade diameters available on special order.			
PF 89 comes with two undercut segments for core protection.
