## WET CUT

Our wet cut blades are geared with the professional in mind. They are made with the finest industrial diamond. They can be ordered in diameters from 12" to 60". Blade thickness from .110 to .500. Our asphalt and concrete blades are leaders when it comes to cutting speed. We recommend that you talk with one of our diamond blade specialists when ordering professional wet blades.

### Recommended Equipment:

- Slab Saws 35HP & up \*
- Wall Saws
- Grooving Machines
- Stone & Refractory Saws

\* We recommend our Wet/Dry Segmented Blades for Low HP Saws (18 HP or less). See Dry Cut Segment.
