

DUST MUZZLES

The Dust Muzzle uses the force created by the grinding wheel to push the dust out of the exhaust port. When connected, the Dust Muzzle can remove up to 95% of the pollutants at the point of origin. Will fit any 5", 7", or 8" angle grinder.

Dust Muzzle

No.	Description	Wt (lbs)

w/ 18" Hose

Crack Chaser Cover Plate

VACUUM

Primary and Secondary filters may be cleaned without removing the lid. There is no need to change the filters when switching from a dry job to a wet job (the filters never get wet). Recommended for any wet/dry application. Will never blow dust (not even on startup). Filters are washable. Double filter system. A quiet (81 decibels) design makes for a better working climate. Vacuum has a powerful 23,000 RPM 11.5 amp electric motor. The tools store easily on the vacuum. Automatic air shut off for all wet pickups. Suction hose can be used for draining a 16 gallon tank. High Impact & Rust Resistant tank for years of trouble free use.
